
Product name: Acetamiprid 20% SP

Product Specification:

Item	Specification
Acetamiprid content, %	20 ± 1.2
Water, %	3.0 max
pH value	6.0-9.0
Wetting Time, s	90 max
Persistent foam, mL (after 1min)	60 max
Degree of dissolution and solution stability, % (after 5 min)	1.0 max
Degree of dissolution and solution stability, % (after 18 h)	0.05 max
Stability at elevated temperature	Qualified

Introduction:

This product is a systemic pyridine insecticide with contact, stomach and permeation action. This product kills pests by interfering with nerve conduction in insects, binding to acetylcholine receptors, inhibiting its activity. It has good control effect on aphids.

Direction for use:

Crop	Target	Application Time	Dosage rate	Method
Apple tree	Aphid	At the initial vigorous stage	Dilute 8000 -10000 folds	Spray
Cucumber	Aphid		120-180 g/ha	Spray
Cotton	Aphid		75-150 g/ha	Spray
Rice	Rice planthopper		112-150 g/ha	Spray

Note:

1. Do not mix with alkaline pesticides.
2. Do not use in wind or 1 hour before rain. Do not recommend for use at low temperatures.
3. Insecticide in other mechanisms are recommended to use by turns to delay resistance.
4. Apply once at most for every cycle of apple tree, twice times for cucumber, cotton and rice. PHI of apple tree is 7 days, 5 days for cucumber, 14 days for cotton, 15 days for rice.
