
Product name: Fipronil 80% WG

Product Specification:

Item	Specification
Fipronil content, %	80 ± 2.5
Water, %	2.0 max
Wettability, s	60 max
Wet sieve test, % (pass through 75µm sieve)	99.5 min
Degree of dispersion, %	85 min
Suspensibility, %	70 min
pH value	5.0 – 8.0
Persistent foam, mL (after 1min)	50 max
Dustiness	Essentially dust free
Flowability, %	99 min
Attrition resistance, %	96 min
Stability at elevated temperature	Qualified

Introduction:

This product is a broad-spectrum insecticide with contact and stomach action. It has good control effect on striped rice borer in rice.

Direction for use:

Crop	Target	Application Time	Dosage rate	Method
Rice	Striped rice borer	Hatching vigorous stage	30 – 40 g/ha	Spray

Note:

1. Insecticides in other mechanism are recommended to use alternately in order to delay resistance.
2. Do not apply when bees are actively foraging.
3. Apply once at most for every crop cycle.
